ART SHOULD NOT BE GOVERNMENT
CENSORED!

"I pledge to create in a fashion encouraging and befitting the nobility and grace of humanity, and by demonstrating mature vision I will aid in maintaining an artistically free and responsible society. This web site shall remain free of racism, prejudice, hatred, and excessive violence. I enjoy the right to express my unique vision as I perceive that vision to be, and I simultaneously accept the ethics of freedom and a better tomorrow through being artistically responsible today."

Read poems and short stories from all over the world. Look at paintings, drawings and photographs. Act on non-profit aid projects.

Independent communication in a networked world

The Global Vision Platform © is an independent platform for progressive aid, sustainable change, and cultural diversity. We show you creative writers and visual artists from thirty-six countries all over the world.

Artist of our Choice

Our choice of the 160⁺ writers and artists at the Intercultural Platform. This time we recommend [Valeriy Grachov](#), a Russian-born painter, living in Ukraine.

His paintings tell a story of the quietness and dominance of the mountains of Asia. In it you feel the painter's interest in the culture and spirit of China, India and Japan. Grachov has had exhibitions in Europe and the US.

Intercultural Platform

Read [stories and \(non-Western\) poems](#) from all over the world. Look at [paintings and drawings](#) in a gallery. There can be no progress without respect for cultural diversity.

The Intercultural Platform has won **Special Mention** in the intercultural competition for arts and culture: the
